

# MEMORANDUM

TO: FIU Faculty and Staff

FROM: Liane Martinez – Chair - PeopleSoft 9.0 Steering Committee  
Financials Upgrade 9.0 and Grants Suite Implementation

DATE: July 13, 2009

RE: PantherSoft Financials Upgrade and Grants Implementation is “Live” in PantherSoft

The University has successfully met another major milestone by upgrading and implementing PantherSoft Financials version 9.0 for FIU and its Direct Support Organizations (DSO's) including the FIU Foundation. In addition, the Grants Suite has been fully implemented to efficiently manage awarded and accepted sponsored research activities. All systems went live today Monday July 13, 2009.

The successful upgrade and implementation has been the result of ongoing hard work and dedication of various individuals in the Division of Finance and Administration, Information Technology, Academic Affairs and the Office of Sponsored Research. Over the next few weeks we will continuously monitor the system for potential modifications as the various issues of security, access and performance are observed in real time.

For those designated users of the new PantherSoft Financial system, please take a moment over the next few days to log into the system and review your access. It is recommended that you clear your browser and log into the system at

<https://psprod.fiu.edu:8700/psp/psfsprd/?cmd=login>

Post production Support is available immediately and will be provided by the Financial Systems and Reporting group available at 305.348.2284. Additional support such as open labs will be available beginning on July 14, 2009 in GL 265 and by contacting us via email at [psfin@fiu.edu](mailto:psfin@fiu.edu). Lab times for faculty and staff can be found at <http://panthersoft.fiu.edu/financials/labs.htm>. For more information on the PantherSoft Financials Upgrade and Grants Suite implementation, please visit the project website at <http://panthersoft.fiu.edu/financials>.
